Fresh Pasta Impresses Customers

Published: Friday, July 22, 2011

Founded in 2004 by Mark Garcia-Oliver, The Fresh Pasta Company supplies fine Italian fresh pasta to fine food stores and restaurants. Winner of 35 awards including Great Taste Awards, the P.A.P.A Industry Awards 2010, the product has been recognised for excellence, innovation and presentation.

The pasta is made in Italy with "00" flour, free range egg and the best quality ingredients. The team use traditional methods of production to achieve contemporary flavours for the fillings, and the finest quality fresh pasta.

The Fresh Pasta Company works successfully with, Fortnum & Mason, Harrods, John Lewis Food Hall, Whole Foods, House of Bruar, Avoca (Ireland), and British Airways First and Business Class, as well as Delis and fine food shops around UK.

The filled fresh pasta comes pre-packed in six flavours (250g tray serves 2 people), or loose to sell from the serve-over counter.
